Some girls are constantly in love, though it is not necessary.

People will buy anything on instalment except a savings account.

After the first 50 years the hardest work is the finishing.

It isn't wise to assert too much personality at a busy street intersection.

Often a man pays a lawyer for advice his wife could give him for nothing.

Americans progress will not take so long as there are enough corners for the filling stations.

Who remembers when good ladies tried to reform old men by getting them to sign the pledge?

If Scrooge had practiced a while with monomaniacs, the he would have acted as a soothing potion.

Correct this sentence: He has been in the legislature three terms but he's introduced a single bill.

We note an advertisement: "Bath Robes, \$75.00. With one like that fellow could hardly wait for Saturday night."

Beautiful girls are more plentiful than intellectual ones, says a trench, who adds that this is in keeping with the demand.

Dean Ince says that the only way to be really orthodox is not to think at all. Many find no difficulty in being orthodox.

"Mother's Vacation" is the title of a movie. It is about the only kind of vacation the majority of mothers will ever see.

Most of us envy the fellow who is morally and financially independent enough to stay away from people and places that annoy him.

FARM CLUB WORK

Rural boys and girls are far outstripping their parents in the study of improved practices in farm and home management.

Announcement by the Department of Agriculture, which has been conducted by young people's clubs throughout the country.

Considerably more than half a million farm boys and girls now participate in these demonstrations.

which include the raising of various crops, animal husbandry, handling of poultry, food preservation, designing and making of clothing, home improvement and beautification, and in fact every phase of rural life.

Instruction in these activities, imparted by farm and home demonstration agents, serves to educate these boys and girls in improved rural and home management.

They are thereby fitting them to become efficient farmers and homemakers, besides teaching them the fundamentals of public-spirited, useful citizenship.

While the enrollment and results obtained in club work are gratifying, considering the circumstances under which this effort has been put forth, the Department points out that only about one rural boy and girl in ten are actually taking part in this training at present.

Here is a field for constructive achievement which should interest all who have a regard for the improvement of rural living.

EPILEPTICS CURED

AS SAM DOPED IT OUT.

"Well, Sam," asked the aviator, "how would you like a trip up among the clouds?"

"No, ah," exclaimed Sam, fervently. "Ah stays on terra firma and does not furnish his less terror."—The Alabama Times.

A Non-Political Official For A Non-Political Office

A. F. Harman has spent his life in the school rooms of Alabama. He has the view-point of the teacher and educational worker and is familiar with every phase of public elementary and high school work, rural and urban.

Harman is now serving as State Superintendent of Education by appointment. His appointment was NOT POLITICAL, but in recognition of his long years of outstanding work for Education in Alabama.

FULL TERM FREE SCHOOLS

Harman favors full term schools free of tuition or incidental fees:

A simplified plan for distribution of State School Funds;

Favors State Aid for transportation of school children;

Favors a substantial increase in State aid for rural school buildings, repair and equipment on a basis of two dollars by the State to one dollar by the community.

THE OLD BOSSES OPPOSE HARMAN

A. F. Harman is being opposed by those who built up the so-called "School Trust" and is also being opposed by the School Book Monopoly and those agencies which made possible such a monopoly. They are opposing Harman because they cannot control him.

Harman is young and vigorous enough, and sufficiently trained, to conduct the office himself instead of having to call in one or more of the ring bosses to help.

He believes in giving a dollar's worth of education for every dollar's worth in schools.

It is well to FIND OUT:

What is best for your children and Alabama? Which candidate has a record for economy? Which candidate has made a national reputation for patriotic work for rural schools? Which candidate is competent? Which candidate has shown he knows how to reduce overhead? Which candidate has always been and is now free from private money-making interests so as to be able to give his whole time and interest to public school work he is paid to do?

The answer to these questions will help you to vote for the interest of the children and not of the school ring, which opposes A. F. Harman because it cannot control him.

(Paid political adv. by Coffee County Harman Volunteer Committee.)

NO TIME TO CHANGE

The Tribune wants to make clear its stand on the congressional candidates—Hon. Henry B. Steagall and Judge J. J. Speight, of Dothan. Naturally, this paper would support Judge Speight, a native son. The Tribune knows the Speight family and has the highest regard for the Judge, his father and brothers; they are men above reproach and if The Tribune allowed itself to be swayed by friendships it would unhesitatingly advise the voters to support Judge Speight.

But there are other considerations—matters that touch the future progress of the district and the nation as a whole. The so-called Hoover prosperity has put the American voters in a frame of mind that looks evil for the republic.
